

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

Section 1 - Identification

WRANGLER Disinfectant Bowl & Porcelain Cleaner Product Identifier

Other means of identification 1735

Recommended use Disinfectant Toilet Bowl Cleaner

Recommended restrictions EPA Registered Product. For Commercial and Industrial Use Only. (RTU) Ready-To-Use solution.

Manufacturer / Importer / Supplier / Distributor Information

National Chemical Laboratories of PA, Inc. Company Name Address 401 N. 10th Street - Philadelphia, PA 19123

Telephone 1 (215) 922-1200 **Supplier Email** info@nclonline.com Contact CHEM-TEL **Emergency Phone** 1 (800) 255-3924

Section 2 - Hazard(s) Identification

SDS Hazards and Warnings are based on the undiluted product. Refer to diluted SDS for Ready-To-Use Hazards and Warnings.

Classification Category **Physical Hazards** Metal Corrosion 1 **Health Hazards** 1 Acute toxicity, oral Serious eye damage/eye irritation 1 Skin corrosion/irritation 1B

> TARGET ORGAN: respiratory tract Specific target organ toxicity, single exposure 3

> > irritation

OSHA defined hazards **Label Elements**

Hazard Symbol

Not Classified.

Signal Word Danger

Hazard Statement May be corrosive to metals. Causes severe skin burns and eye damage. Harmful if swallowed. May cause respiratory irritation.

Precautionary statement

Prevention Keep only in original container. Use only in a well-ventilated area. Do not breathe mist or vapor. Wash thoroughly after

handling. Wear protective gloves/protective clothing/eye protection/face protection.

If swallowed: rinse mouth. Do NOT induce vomiting If on skin (or hair): Take off immediately all contaminated clothing. Rinse Response

skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a doctor. Specific treatment (see See first aid section of this material safety data sheet on this label). Wash contaminated

clothing before reuse.

Storage Keep container tightly closed. Store locked up.

None known.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise

classified (HNOC)

Section 3 - Composition/Information on ingredients

Mixture

Hazardous Components Ingredient Name CAS# Hydrochloric Acid 7647-01-1 9.6 - 10.2 Quaternary Ammonium Chloride compounds mixture 0.08 -0.12

Composition Comments Components not listed are either non-hazardous or are below reportable limits.

Section 4 - First-aid Measures

Inhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or

doctor/physician.

Skin contact Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Immediately call a POISON CENTER or

doctor/physician.

Eye contact Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a POISON CENTER or doctor/physician.

Ingestion Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician.

Corrosive effects. Symptoms may include stinging, tearing, redness, swelling and blurred vision. Permanent eye damage Most Important symptoms

/effects, acute and delayed including blindness could result. Prolonged or repeated skin contact may aggravate existing skin conditions. Inhalation of mists

may aggravate existing chronic respiratory conditions such as asthma, emphysema or bronchitis.

Indication of immediate medical attention and special treatment

Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While

remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep

victim under observation. Symptoms may be delayed.

General Information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

Section 5 - Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing

media

RTU product, will not suport combustion. Water fog. Foam. Carbon dioxide

During fire, Corrosive vapors and gases hazardous to health may be formed.

(CO2) Do not use a heavy water stream.

Specific hazards arising from the chemical

Special protective equipment

and precautions for firefighters

Fire-fighting equipment /instructions

if you can do it without risk.

Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting

Do not enter fire area without proper protective equipment, including respiratory protection. Move containers from fire area

water from entering environment.

General fire hazards Insufficient data available on direct fire hazard (flashpoint > 200°C). This product is not flammable or combustible.

Section 6 - Accidental release measures

Personal precautions, protective equipment and emergency procedures.

Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.

Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas.

Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual

contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS

Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.

Section 7 - Handling and storage

Precautions for safe handling Avoid breathing mist or vapor. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Provide adequate

ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Use care in

handling/storage

Conditions for safe storage. including any incompatibilities Store locked up. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the

Section 8 - Exposure control/personal protection

Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Type Value

Hydrochloric Acid (CAS 7647-01-1) TWA 7 mg/m³, 5 ppm

US. ACGIH Threshold Limit Values

Component Type Value Hydrochloric Acid (CAS 7647-01-1) TLV-C 2ppm, URT irr

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering

controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eyewash facilities and emergency shower must be available when handling this product.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Wear appropriate chemical resistant gloves.

Other If conditions risk exposure, wear suitable protective clothing.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards

Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

Section 9 - Physical and chemical properties

Appearance

Physical state Liquid. Turbid liquid. Color Milky Blue. Odor Cherry. Odor threshold Not available.

Melting point/freezing point Initial boiling point and

No data available.

boiling range

No data available.

Flash point No data available. **Evaporation rate** No data available Flammability (solid, gas) No data available.

Upper/lower flammability or explosive limits

Flammability limit - lower (%) No data available. Flammability limit - upper (%) No data available. Explosive limit - lower (%) No data available Explosive limit - upper (%) No data available. No data available. Vapor pressure Vapor density No data available. Relative density 1.04 ± 0.01 Relative density temperature 75 °F (23.89 °C) **Solubilities** Complete Partition Coefficient n-Not available.

octanol/water

Auto-ignition temperature Not available.

Decomposition temperature Water: Solubility in water of component(s) of the mixture:

Viscosity

<100 cSt propanol: Complete

Viscosity Temperature 75°F (23.9°C)

Section 10 - Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability Stable under normal conditions

Possiblity of hazardous reactions Not established

Conditions to Avoid Do not mix with other chemicals. Contact with incompatible materials.

Incompatible materials Bases. Amines. Alkanolamines, Isocyanates, Copper, Metals, Oxidizing or Reducing agents. Anionic surfactants.

Hazardous Decomposition

Products

Carbon monoxide. Carbon dioxide. Corrosive vapors; Hydrogen chloride.

Section 11 - Toxicological information

Information on likely routes of exposure

Ingestion Causes digestive tract burns.

Inhalation May cause irritation to the respiratory system.

Skin contact Causes severe skin burns. Eye contact Causes serious eye damage.

Information on toxicological effects.

Acute toxicity May be harmful if swallowed.

> Components Level Type Code **Species** Results Hydrochloric Acid (CAS 7647-01-1) Oral LD50 700 mg/kg Acute Rat Acute Dermal LD50 Rabbit >5010 mg/kg

Skin corrosion/irritation

Causes severe skin burns and eye damage.

Serious eye damage/ eye irritation

Causes serious eye damage.

Respiratory sensitization Not a respiratory sensitizer.

Page 3 of 6

Skin sensitization This product is not expected to cause skin sensitization.

Germ cell mutagenicityNo data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

Reproductive toxicity

This product is not expected to cause reproductive or developmental effects. Not classified.

Specific target organ toxicity -

single exposure

Aspiration hazard

Eyes, Skin, Respiratory system.

Specific target organ toxicity -

repeated exposure

Eyes, Skin, Respiratory system.

Not an aspiration hazard.

Section 12 - Ecological Information

Ecotoxicity Because of the low pH of this product, it would be expected to produce significant ecotoxicity upon exposure to aquatic

organisms and aquatic systems.

Component(s)

Hydrochloric Acid (CAS 7647-01-1)

Aquatic

Acute Fish LC50 Leuciscus idus 862 mg/l, 48 hours

Persistence and degradability
No data is available on the degradability of this product.

Bioaccumulative potential Not established.

Mobility in soil Not available.

Mobility in general May be harmful to plant growth, blooming and fruit formation.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine

disruption, global warming potential) are expected from this product.

Section 13 - Disposal considerations

Disposal instructions PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or

rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional

Office for guidance.

CONTAINER DISPOSAL - Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple

rinse container promptly after emptying.

(For containers 5 gallons or less):

Triple rinse as follows: Fill container 1/4 full with water and recap. Agitate vigorously. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for

recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

Hazardous waste code

Waste from residues / unused

products

Contaminated packaging

The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material

and its container must be disposed of in a safe manner (see: Disposal instructions).

Since emptied containers may retain product residue, follow label warnings even after container is emptied.

Section 14 - Transport information

DOT
