

# H.D. STRIPPER

## HEAVY-DUTY FLOOR FINISH REMOVER

### DESCRIPTION:

**H.D. STRIPPER** is a concentrated stripper combining powerful volatile solvents with a caustic alkali that effectively removes water-based finishes and waxes from flooring. Fast and efficient, **H.D. STRIPPER** will reduce floor stripping time as compared with standard alkali strippers.

### FOR USE ON:

Resilient Tile, Linoleum, Concrete, and Sealed Wood Floors. DO NOT use on terrazzo or marble due to possible etching.

### DIRECTIONS:

**Do Not Use Undiluted** — possible damage to some flooring types may occur if product is too concentrated or left too long on floor before being rinsed off. Always test for compatability in an inconspicuous area. Dilute 1/2 to 1-1/2 cups (4-12 oz.) of **H.D. STRIPPER** into 1 gallon of hot water. Apply liberally to floor with a suitable applicator and allow to sit a few minutes. Scrub with floor machine or automatic scrubber using a stripping pad or scrub brush, then pick up excess material and rinse with clean warm water.

### HEALTH & SAFETY:

#### **DANGER!**

DO NOT TAKE INTERNALLY — HARMFUL OR FATAL IF SWALLOWED  
CONTAINS SODIUM HYDROXIDE

Causes Severe Burns to Skin and Eyes

AVOID CONTACT WITH SKIN, EYES, AND CLOTHING

**KEEP OUT OF REACH OF CHILDREN**

Use In Well Ventilated Area — Vapors May Irritate Eyes, Skin, and Respiratory Tract

Wear rubber gloves and safety glasses when handling—Liquid may be absorbed through skin.

#### — FIRST AID —

**Ingestion:** DO NOT induce vomiting. Never give anything by mouth to an unconscious person. Give large quantities of water or milk if available. Get medical attention immediately.

**Eye Contact:** Immediately flush with plenty of water for 15 minutes holding eyelids apart to ensure flushing of the entire eye surface. Get medical attention immediately.

**Skin:** Immediately wash with plenty of water. If available, rinse with vinegar or dilute acetic acid (3% solution). Remove contaminated clothing and footwear. Wash clothing before reuse and discard footwear which cannot be decontaminated. Get medical attention immediately.

**Inhalation:** Remove person from contaminated area to fresh air. If breathing has stopped, artificial respiration should be started. Oxygen may be administered if readily available. Get medical attention immediately.

#### **Do Not Mix With Any Other Chemicals**

For Industrial and Institutional Use Only

Do Not Store in Open or Unmarked Containers

See Product MSDS for more Health & Safety Information

### PACKAGING:

12/1-quart case, 4/1-gallon case, 5-gallon pails

### ITEM NO.:

165

04/98
